

## The Academic Word List

The Academic Word List was developed by Averil Coxhead, Victoria University of Wellington, New Zealand. For further information on the Academic Word List and the *Oxford American Dictionary*, look at pages R6-R7 in the printed dictionary. For further information on the Academic Word List itself, go to this website: [www.victoria.ac.nz/lals/resources/academicwordlist](http://www.victoria.ac.nz/lals/resources/academicwordlist)

### Sublists of the Academic Word List

Each word in *italics* is the most frequently occurring member of the word family in the Academic Corpus. For example, *assessment* is the most common form of the word family **assess**. American, Canadian, and British spelling is included in the word families, so **contextualize** and **contextualise** are both included in the family *context*.

Sublist 1 contains the most common words in the Academic Word List. Sublist 2 contains the next most common words, and so on. There are 60 families in each sublist, except for sublist 10 which has 30.
